A. PRICING RATES AND TRANSPORTATION INFORMATION

For Pricing, Royalty Rates and Transportation Information for April 2006, refer to Attachments 1, 1A, 2, 2A, and 3.

B. NOTICES

Office Closures – July 3, 2006

All Alberta Energy offices will be closed on Monday July 3, 2006 in lieu of the Canada Day Holiday of Saturday, July 1, 2006. As stated in the May 2006 Information Bulletin, royalty clients are to remit the total amount payable shown on the June 2006 Statement of Account by June 30, 2006.

2006 Annual Allowable Cost Estimates (Capital Cost Allowance and Custom Processing Allowance)

For the January through March 2006 billing periods, royalty clients received monthly cost deductions that were calculated by using their 2005 Estimated Allowable Costs, multiplied by their 2004 Corporate Effective Royalty Rate (CERR), divided by 12 (months).

The information in the 2005 AC2, AC3, and AC5 documents will be used to calculate the 2005 Actual Capital Cost and Custom Processing Allowances. This calculation will be reflected in the April 2006 Initial Annual Billing Period (IABP) invoice, issued in June 2006.

The 2005 Actual Allowable Costs will become the royalty client's 2006 Allowable Cost Estimates.

Commencing with the April 2006 billing period, royalty clients will receive monthly deductions based on their calculated 2006 Allowable Cost Estimates, multiplied by their new 2005 CERR, minus the total deductions received in the January, February and March 2006 billing period invoices, divided by the months remaining in the year (i.e. 9 months as of the April billing period).

To adjust the 2006 Allowable Cost Estimates, please submit a written request, accompanied by supporting documentation, to Client Services.

Examples when an adjustment may be required are as follows:

- A royalty client's business in a year changes significantly so that the Crown share of Capital Cost Allowance and/or Custom Processing Allowance from the preceding year are no longer applicable, or
- The AC2, AC3, and AC5 documents were not submitted in time for them to be processed in the 2005 IABP.

Provincial Average Corporate Effective Royalty Rate (CERR)

The Provincial Average CERR is initially assigned to each new royalty client to estimate the Crown's share of allowable costs. Each June, during the Initial Annual Billing Period (IABP), the estimated CERR is recalculated and the actual Crown share of allowable costs is determined using the client's actual calculated CERR.

The Provincial Average CERR for the 2006 production year is 0.1996828.

Royalty Exemption Statement

The Royalty Exemption Statement included in the May 2006 Crown Royalty Invoice contained the following problems:

- PDF file format font was incorrect resulting in not all columns of the report being displayed or printed.
- CSV file format had duplicate headers for two columns which shifted data into incorrect fields.
- Condensate summary dollars did not match the detailed lines of condensate taken. Pre-2002 data was missing.

The first two formatting items were corrected and the change will be reflected in the June 2006 invoice. The condensate summary information is expected to be reflected in the July 2006 invoice.

Royalty Deposit Adjustment

The royalty deposit recalculation for 2006 is the lesser of 1/6 of a client's net royalty for 2005 including condensate and the amount determined by multiplying the current deposit maintained by the client by a price factor. The factor of (1.30) was calculated by dividing the current year long-term gas reference price for 2006 ($6.50) by the long-term gas reference price used in the 2005 ($5.00) calculation. Refer to Chapter II, Section 6.4 of the Principles and Procedures for additional information. Refer to Attachment 4 for a sample of the Royalty Deposit Adjustment report which includes a new column for condensate. If you have any questions, please contact Shellie Duiker at (780) 422-8083.

Operating Costs Subject to Recapture

The Operating Costs Subject to Recapture report for the 2005 production year will be issued in the April 2006 invoice in the June 2006 calendar month. Operating costs are recaptured from a royalty client who has volumes at a facility where they have no capital ownership (as identified on the AC1, AC2 or AC3 submission) and no reported custom processing fees. A royalty client who is not an owner at a facility is not entitled to the operating cost they received on a monthly basis. The operating costs subject to recapture will be charged in the August 2006 billing period invoice issued in October 2006.

C. MONTHLY INFORMATION

April 2006 Royalty Due July 31

- **Royalty clients are to remit the total amount payable shown on the July 2006 Statement of Account by July 31, 2006.** If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date. Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided.

- **The July 2006 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your April 2006 Invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.**

- Current period interest will not be charged on current invoice charges for the production month of April 2006 if it is paid in full by July 31, 2006.

- Current period interest will accrue on any overdue charges commencing the first day after the due-date until it is paid in full.

  Note: If the due date falls on a non-business day, the next business day will apply as the due date.

- Cheques are payable to the Minister of Finance, Province of Alberta.

May 2006 VA4 Due July 15

The VA4 forms for the production month of May 2006 are due in the department offices by July 15, 2006.

Note: If the due date (15th) falls on a non-business day, the next business day will apply as the due date for VA4 forms.

May 2006 Production Reporting

May 2006 production reporting is submitted through the Registry. The deadline for submission of SAF, OAF, and Volumetrics is posted in the Petroleum Registry of Alberta website "Calendar" under Bulletin Board.

Changes to this calendar will be posted on the Registry web site home page in "Broadcast Messages."

Interest Rate June 2006

Alberta Energy's interest rate for June 2006 is 7.00%.

March Provisional Assessment Charge

The summary of Provisional Assessment Charges for all production periods in the March 2006 billing period was:

First Time Provisional Assessment	Reversals of Provisional Assessments	Net Provisional Assessment
$5,092,576.81	($6,602,545.13)	($1,509,968.32)

March Penalty Charges

The revised penalty table below shows at the form level, the total penalty charges and reversals, for the March 2006 billing period:

FORM	Penalty Charges	Penalty Reversals	Net Penalty Charges for 2006/03
AC2	$33,300	($3,400)	$29,900
AC4	$11,600	($200)	$11,400
AC5	$2,400	$0	$2,400
GR2	$0	$0	$0
NGL1	$1,000	$0	$1,000
VA2	$1,000	($2,000)	($1,000)
VA3	$0	$0	$0
VA4	$200	$0	$200
Total	**$49,500**	**($5,600)**	**$43,900**

Alberta Royalty Tax Credit Program Quarterly Rate

For the second quarter of 2006, commencing April 1, 2006, the royalty tax credit rate will be .2500. This rate is based on a royalty tax credit reference price of $690.57 per cubic metre. The Alberta Royalty Tax Credit rates for the past year were:

First Quarter, 2006	.2500
Fourth Quarter, 2005	.2500
Third Quarter, 2005	.2500
Second Quarter, 2005	.2500

If you have any questions, please contact Tax Services at (780) 426-3035.

Gas Royalty Calculation Support

Gas Royalty Calculation staff will be available monthly to meet with clients who need assistance with royalty reporting. Royalty clients requiring assistance are encouraged to call Deen Khan, Director, Gas Royalty Calculation (780-422-9247) or e-mail deen.khan@gov.ab.ca two business days before the meeting date to arrange an appointment. The July through September schedule is as follows:

Where:
AMEC Place
Room 437, 801-6 Avenue SW
Calgary, Alberta
Phone: 403-297-8954
(Industry must go to the 3rd Floor Reception upon arrival to sign-in and be given a visitor tag)

When – 10 am to 3 pm
July 27, 2006
August 23, 2006
September 21, 2006

D. INFRASTRUCTURE DATA CHANGES

Client ID Listing

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, includes Working Interest Owner (WIO) role start/end dates.

This report is also published daily on the Petroleum Registry website at:

http://www.petroleumregistry.gov.ab.ca

The department reminds Business Associates to review their WIO role to ensure the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role start date with no end date, then that BA can receive allocations from the stated start date forward.
- If a BA has a WIO role start and end date, then they can only receive allocations from the stated start date until the end date. Any allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive allocations at all.

Please contact Client Registry at (780) 422-1395 if you have any questions regarding the information supplied on this listing.

Projects/Blocks

If information is required on Projects or Blocks, please contact Isabelle Warwa at (780) 427-8952.

Client Status Changes

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client names or IDs, please contact Client Registry at (780) 422-1395.

The following is a revived client:

Company Name	Client ID	Revived Date
Pursuit Energy Inc.	A0G7	May 30, 2006

Nova Tolls - Multiple Gas Reference Prices

Royalty information related to the implementation of the Factor Model negotiated with industry for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under Facility Royalty Trigger Factors and Meter Station Ties.

E. REMINDERS

Annual Operating Cost Adjustment Reports for February 2006 Billing Period

Royalty clients may have had a charge type on their February 2006 invoice titled "Annual Operating Cost Adjustment." This adjustment represents the difference between the actual annual operating costs and the accumulated estimated monthly unit operating cost rate (UOCR), including any prior annual adjustments, for a production year. To support this adjustment the Annual Operating Cost Adjustment Details and Annual Operating Cost Adjustment Summary reports were included in the February 2006 billing period invoice. These reports may have omitted some historical operating cost information if a production month's annual adjustment is zero, and therefore were reissued. However, the annual operating cost adjustment amounts reported on the February 2006 invoices were correct. The revised reports have the February 2006 billing period on them and were sent to the Registry on May 18, 2006.

If you have any questions, please contact your Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin.

Allocating Operating Costs to the Reported EUB Facility Code on the AC1

In some complex systems, processing and product allocation can occur at numerous EUB facilities within the network. Situations exist where an FCC is tied to one facility, but the royalty volumes and operating costs are triggered at another EUB facility within the network. In these cases, if there is no record of ownership (AC1, AC2 or AC3) or custom processing fees (AC5) at this additional facility, the department will recapture operating costs previously allowed on these royalty volumes.

Where operating costs may need to be allocated to account for volumes delivered to other facilities in order to retain eligible operating costs, the current AC1 can be amended to indicate the other EUB royalty trigger facility. The reported EUB facility code (field 2.10) on the AC1 is used to preserve the FCC owner's existing operating cost deduction entitlement. Field 2.10 allows identifying multiple facilities, if applicable.

If you have any questions, please contact your Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin.

Changes to the Annual Client Package

As a part of the department transitioning away from mainframe based applications, the annual client package moved from the mainframe to the UNIX platform. The change for the annual client package was migrated in May 2006. The change should be seamless as the reports will remain unchanged, except as noted below:

1) The CERR reports were renamed to improve clarity.

Current Report Name	New Report Name
CERR Amalgamation/Consolidation – Simple	CERR Calculation Summary – Individual
CERR Amalgamation/Consolidation – Complex	CERR Calculation Summary – Weighted Average
CERR Calculation Summary without CERR	CERR Facility Summary
CERR Calculation Summary with CERR	No longer separated, combined with above report
CERR Detail	Unchanged
CERR DDF	Unchanged

2) Royalty Deposit
   Minor modifications have been made to this report including the addition of production year and an end of report line. Also this report has a new field for condensate that has been added.

Should there be any concerns or questions about the above changes, please contact Penny White at (780) 422-9261.

Additional Changes to the Royalty Exemption Statement – Condensate Royalty

The Royalty Exemption Statement has been changed to incorporate condensate royalty for wells that have condensate royalty and have received a Deep Gas Royalty exemption. Four columns have been added in the report:

- A column each for Condensate Royalty ($) and Eligible Condensate Exemption Taken ($) for the total well, and
- A column each for Condensate Royalty ($) and Eligible Condensate Exemption Taken ($) for the royalty client share.

The Royalty Exemption Statement is produced and included with the monthly invoice. This statement is provided to the clients on the Registry in three formats: TXT, PDF and CSV. See Attachment 5 for a sample report.

For royalty exemption royalty clients who currently receive their monthly invoice in paper format, and do not have access to the Registry, the invoice and corresponding detail statement are still available in paper format and will continue to be mailed.

No changes to the User Defined File (UDF) Handbook are required.

For further information please contact Tracy Wadson (780) 422-9240 or Lu-enn Toon at (780) 422-9082.

Annual Operating Cost Adjustments for 2003, 2004, and 2005 Production Years

Royalty clients may have had a charge type on their February 2006 invoice titled "Annual Operating Cost Adjustment". This adjustment represents the difference between the actual annual operating costs and the accumulated estimated monthly unit operating cost rate (UOCR), including any prior annual adjustments, for a production year. Two reports were included with the invoice titled Annual Operating Cost Adjustment Details and Annual Operating Cost Adjustment Summary. Annual Operating Cost Adjustments are processed once a year and the adjustments will be identified in the February invoice issued in April. The results of the 2006 UOCR calculation process are published on the department website http://www.energy.gov.ab.ca/1917.asp. For additional information please refer to the March 2004 Supplement Information Bulletin 04-03A or contact your Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin.

Rapid Trans Deposit Slips

Royalty clients are reminded that banks do not have a supply of our Alberta Energy Rapid Trans Deposit Slips. They may be picked up or requested from the following locations:

AMEC (Calgary Information Centre)
300, 801 – 6 Avenue SW
Calgary, Alberta T2P 3W2
Telephone (403) 297-6324
Fax (403) 297-8954

Alberta Energy (Gas Royalty Calculation Unit)
8th Floor, 9945-108 Street
Edmonton, Alberta
T5K 2G6
Contact: Barb Buckley
Telephone (780) 644-4899
Fax (780) 422-8732

Alberta Energy (Financial Services)
12th Floor, 9945 – 108 Street
Edmonton, Alberta

Fax (780) 422-4281

F. POINTS OF CONTACT

Petroleum Registry of Alberta

The Petroleum Registry of Alberta Service Desk is the focal point for communications with the Registry regarding preparations for, access to, or utilization of the Registry. To contact the Petroleum Registry of Alberta Service Desk call: 1-800-992-1144.

Alberta Energy Internet

Prices, Royalty Rates, and Transportation Information are available on the Alberta Energy Internet address: http://www.energy.gov.ab.ca, from "Our Business", navigate to "Natural Gas", "About Natural Gas", "Prices", "Alberta Natural Gas Reference Price (ARP)".

In addition, both the Gas Royalty Calculation Information Bulletins and Information Letters are also available on the Alberta Energy Internet address: http://www.energy.gov.ab.ca, from "Our Business", navigate to "Natural Gas", "Legislation, Guidelines & Policies".

Gas Royalty Client Services

The Gas Royalty Client Services is structured as a Business Associate client portfolio system, which assigns a given Business Associate to one of four Client Service teams. Listed below is the portfolio breakdown along with Client Service Team Leads and phone numbers. The portfolios are divided by company name and not by BA ID.

Example: If your company name is the "Gas Company" you would call C – G team at (780) 644-1202.

Business Associate	Phone Number and E-mail Address	Team Lead
Numbered companies, A, B & L	(780) 644-1201 GRCST1@gov.ab.ca	Mary Spearing
C – G	(780) 644-1202 GRCST2@gov.ab.ca	Lily Hiew
H – P (excluding L)	(780) 644-1203 GRCST3@gov.ab.ca	Chris Nixon
Q – Z	(780) 644-1204 GRCST4@gov.ab.ca	Kamal Rajendra

Gas Royalty Reception: (780) 427-2962
Fax: (780) 427-3334 or (780) 422-8732
Alberta Toll Free: (780) 310-0000
Hours of operation are 8:15 a.m. to 4:30 p.m.
Voice messages left after 4:30 p.m. will be answered the next business day.

In situations where a company has just amalgamated or purchased another company, the general rule is to call the team that is responsible for the "Supra" business associate, or Royalty payer.

Below are some guidelines for clients who are unsure which Client Services Team to call regarding their questions.

1. **Amalgamation/consolidation** - Call the team responsible for the "Supra" business associate (Royalty Payer).

   i.e. ABC Oil and Gas amalgamates with Zed Exploration and Zed is the amalgamator (royalty payer). When calling Client Services regarding business for ABC Oil and Gas you would call Team 4 (Q-Z) (780-644-1204) because Zed Exploration is now

the Supra business associate and royalty payer. This rule would apply even if you were calling regarding business that is prior to the acquisition or amalgamation.

2. **Asset Purchase** - Call the team responsible for your company.

   i.e. 123 Gas purchases the assets of TSP Exploration, but not the company. When calling Client Services regarding business for 123 Gas you would call Team 1 (# Co., A, B, & L) (780-644-1201) because you have only purchased assets. You would not be entitled to information regarding business for TSP Exploration that is prior to the asset purchase.

3. **Consultants/service providers** - If you have a contract to provide production accounting services to a company, call the team responsible for your client's company.

   i.e. Paul Snow Consulting Services enters into a contract with Duckback Oil and Gas and Olive Oil and Gas. Paul Snow would contact Team 2 (C-G) (780-644-1202) to discuss Duckback Oil business and Team 3 (H-P excluding L) (780-644-1203) to discuss Olive Oil and Gas business. At the time the contract is signed, Paul Snow would have had each company notify the appropriate team that he was authorized to access information for their company.

SUPPLEMENT – JUNE 2006 INFORMATION BULLETIN

Alberta Natural Gas Royalty Guidelines - July 2006 Edition Now Available

The latest edition of the Alberta Natural Gas Royalty Guidelines, July 2006, with current updates for major changes in legislation and policy is now available.

In response to a client survey, the Alberta Natural Gas Royalty Principles and Procedures have been reorganized to be more user-friendly. Some structural changes to the Guidelines are complete and include combining the principles, the procedures, and the forms sections by subject matters. The intent of the reorganization is to assist clients in locating information quickly and to obtain information on each subject matter in one location.

The department updates the Alberta Natural Gas Royalty Guidelines when there is a major change in relevant policy or legislation, and regularly to incorporate information published in Information Letters and Information Bulletins. Some major changes included in this Guideline release are the Royalty and Related Information Review changes, specifically Unit Operating Cost Rate changes and the changes relating to the allowable cost information on the Petroleum Registry of Alberta.

The July 2006 edition is effective for October 2002 production periods forward. The September 2001 edition is still applicable for periods prior to October 2002.

The Guidelines may be printed from the department's Internet site located at: www.energy.gov.ab.ca

If you have any questions, please contact Shellie Duiker at (780) 422-8083.
